

The power we supply to you comes from a variety of electric generating resources. Using this diversified power mix enables us to keep our rates low and service reliable should an outage occur or any particular resource experience an upswing in price. As required by California State Law, the Power Content Label shows Anaheim’s actual power supply mix for the previous calendar year, as well as a breakdown of Anaheim’s green power supply mix. Additionally you will find the state’s most current reported mix of power resources for a given year, as estimated by the California Energy Commission. This information is provided as a reference point for you to evaluate your utility's resource mix, compared with the electricity being used within the state. If you would like to know more, please contact us at **714.765.4497**.

Anaheim Public Utilities plans to increase renewable resources in our power mix. We remain committed to supporting environmentally sound energy generation. To learn more about our commitment to renewable power and to view the most current power mix year-round, visit **anaheim.net/utilities**.

POWER CONTENT LABEL			
ENERGY RESOURCES	2011 ANAHEIM POWER MIX* (actual)	2011 ANAHEIM GREEN POWER MIX** (actual)	2010 CA POWER MIX*** (for comparison)
